LETTER OF APPRECIATION

In attention of:

**President of the Planetrise Cultural
and Environmental Association**

Gergő Péter JUHÁSZ

Honorable Mr. Juhász!

Allow us to present our compliments and address the following.

On behalf of the Ivano-Frankivsk Regional Development Agency, we would like to express our sincere gratitude to Planetrise Akadémia for the warm welcome, hospitality, and support provided to the young participants from Ivano-Frankivsk region during their visit to Hungary from 27 to 30 July 2026.

We highly appreciate the opportunity you provided for 10 young participants aged 13–17 and their accompanying supervisors to take part in a meaningful cultural, educational, and environmental program.

We are especially grateful for the comprehensive support provided by the Hungarian side, including accommodation at the Nature Centrum Guesthouse in Győrtelek, daily meals, local transportation, and participation in all organized activities.

The program offered the children a valuable opportunity to discover the natural, cultural, and historical heritage of Szabolcs-Szatmár-Bereg County, visit Nyíregyháza Zoo, learn more about biodiversity, nature conservation and sustainability, and experience Hungarian culture and traditions.

Beyond the educational and cultural value of the program, we deeply appreciate the opportunity it created for Hungarian and Ukrainian young people to connect, communicate, and build mutual understanding and friendship. For Ukrainian children, such experiences are particularly important as they provide a sense of openness, safety, international solidarity, and connection with European communities.

We would like to thank the team of Planetrise Akadémia, as well as all staff members, volunteers, and partners involved in organizing and delivering the program, for their dedication, care, and personal contribution to making the visit meaningful and memorable for the participants.

We sincerely believe that initiatives such as this contribute significantly to strengthening Hungarian-Ukrainian relations, intercultural dialogue, youth cooperation, and friendship between our regions.

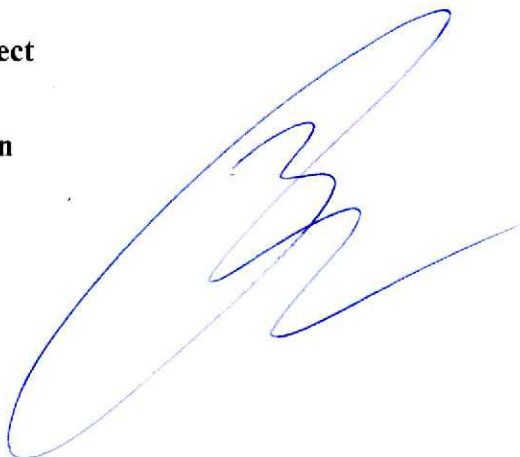

We highly value our cooperation with Planetrise Akadémia and hope that this successful experience will serve as a foundation for further joint initiatives and opportunities.

Please accept our deepest appreciation for your hospitality, generosity, and commitment to supporting Ukrainian children and youth.

Taking this opportunity, once again allow us to express the assurances of our highest consideration.

With sincere gratitude and respect

**Acting Director of the Institution
«Regional Development Agency
of Ivano-Frankivsk region»**
